

CSC 170: Introduction to Web Development

Spring 2023

Instructor: Dr. Andrew Read-McFarland (he/him/his)

Class times: Tuesday and Thursdays 11:05 AM - 12:20 PM in Georgen Hall Room 101

Lab times: Monday and Wednesday 9:00 AM - 10:05 AM or 12:30 PM - 1:45 PM in Gavett Hall Room 208

Office hours: Wednesday and Friday 2:00 PM - 4:00 PM in Wegmans Hall 2105

Texts and Materials:

- No textbook
- A code editor
- FTP software (will discuss this in class/lab)
- A popular web browser (like Google Chrome, Safari, Firefox, etc.)
- A reliable Internet connection

Grading:

50% Lab Assignments

10% Project 1

20% Project 2

20% Project 3

Academic Honesty

This course follows [The University Policy on Academic Honesty](#)

I am totally fine with collaboration with other students, however, do not share code or copy code from each other. All discussions should be at a higher level. Do not copy code found online.

Good rule of thumb: if you typed in the code while not looking at something - it is not plagiarism.

Details on grading

There will be 18 lab assignments. They are meant to make sure you understand the topics they cover. The projects are meant to be more open-ended. Do not submit homeworks late, they will be considered a 0. Even if your submission is not 100% correct or finished, some credit is worth a lot more than a 0, so submit what you have. I will drop your lowest 2 lab grades.

There are no exams and there is no final for the course.

Accommodations

The University of Rochester respects and welcomes students of all backgrounds and abilities. In the event you encounter any barrier(s) to full participation in this course due to the impact of disability, please contact the Office of Disability Resources. The access coordinators in the Office of Disability Resources can meet with you to discuss the barriers you are experiencing and explain the eligibility process for establishing academic accommodations. You can reach the Office of Disability Resources at: disability@rochester.edu; (585) 276-5075; Taylor Hall.

Students with an accommodation for any aspect of the course must make arrangements IN ADVANCE through the [Disability Resources](#) office. Then, as instructed by the office, contact the instructor to confirm your arrangements. Do not leave this until the last minute.

Excuses

Students who are unable to attend or complete any part of the course due to illness should contact the instructor **AS SOON AS POSSIBLE**. Please note that the University Health Service (UHS) does not provide retroactive excuses for missed classes. Students who are seen at UHS for an illness or injury can ask for documentation that verifies the date of their visit(s) to UHS without mention of the reason for the visit. Students with extended or severe illness should contact the [College Center for Advising Services \(CCAS\)](#) for advice and assistance.

Students with an appropriate excuse for missing any exam or project deadline must make arrangements **IN ADVANCE**.

Extensions

Students may ask for an extension on a lab or project at least 24 hours before the assignment is due. The professor or lab TA can grant an extension a maximum of 2 times per student.

Communication

Lab TAs are a great resource and can likely answer most questions you will have. Please utilize your lab time and your TAs. Feel free to utilize office hours as well. Outside of those times, if you have a question that needs to be answered, please speak to a TA **first**. If the TA was not able to answer your question, then reach out to the professor via Slack (preferred) or email with your first line explaining what your issue/question is, which TA you spoke to about it, and what they said.

Final Grades

Letter Grade	Required % Grade
A	93+
A-	90-93
B+	87-90
B	83-87
B-	80-83
C+	77-80
C	73-77
C-	70-73
D	60-70
E	<60
